

Online Tools for Walk Participants

The NAMI National Web Site, www.nami.org, can help make your participation in NAMIWALKS easier, more fun, and more successful. Here's how:

Tools for All Walkers:

- **Register** online
 - • Create a **personal walker page** that tracks your fundraising progress. Personalize it with your photo, bio, fundraising goal and customized Web address. Send your link to family, friends and others in your community so they can make a secure online donation on your behalf.
 - • Access a **customized fundraising letter** with the details of your Walk and your personal Web link automatically filled in
 - • Receive **e-mail notification** each time an online donation is made on your behalf
 - • Access a **detailed report** of all online donations you receive

Tools for Team Captains:

- • **Register your team name** so others can join
- • Receive **e-mail notification** each time a new walker joins your team online
- • Create a **team page** that displays your team's roster and tracks your fundraising progress. Personalize it with a photo, message from the captain and customized Web address. Send your link to prospective members so they can join online
- • **Add members** to your team page who have not yet registered online.
- • **Send e-mail** to your team
- • **Learn more** about your team members through their personal walker pages

To get started, go to
