New Castle County Police Policy Regarding Mental Illness

• Afford people with mental health problems/illness the same rights, dignity, and access to police services as provided to all citizens.

• Treat people with mental health problems/illness with understanding, respect, and attention to the unique problems and emotional difficulties they experience.
Identified Problems

Repeat mental health calls for services were a burden on 911 due to:

1) Gaps in services
2) Disconnect between police and services providers
3) No follow up to ensure connection to care
4) Family members were often overlooked
5) Clients were not involved in decision making
Shared Roadblocks

- System is broken and lots of people fall through cracks.
- No easy answer to many crisis situations.
- Not enough people/services/access to help the people during times that are needed.
- Frequent flyers and the revolving door.

Overview

• HERO HELP is a free, voluntary program that serves as a nexus between the criminal justice system and healthcare system to remove barriers to treatment.
• We work with all treatment providers to ensure participants receive individualized care plans and their clinical/medical needs are met.
• Legal advocacy is provided to compliant participants when determined appropriate.
• It is the goal of the program to promote sustained recovery and improved long-term health outcomes, as well as support for the families/loved ones who have been impacted.
• HERO HELP is not in place of emergency services.
Goals

- Eligible individuals who request treatment or are in lieu of arrest are streamlined into a treatment facility regardless of insurance status.
- Participants and family receive ongoing support and resource referrals through the duration of the recovery process; to include re-engagement.
- Hero Help provides support navigating treatment, insurance, and other challenges in order to improve long-term health outcomes and promote sustained recovery.
- Compliant participants may benefit from formal advocacy through the criminal justice system.
Increased Access to Care
