

September 17, 2021

The Honorable Nancy Pelosi
Speaker
U.S. House of Representatives
Washington, DC 20515

The Honorable Kevin McCarthy
Minority Leader
U.S. House of Representatives
Washington, DC 20515

The Honorable Charles Schumer
Majority Leader
U.S. Senate
Washington, DC 20510

The Honorable Mitch McConnell
Minority Leader
U.S. Senate
Washington, DC 20510

Dear Speaker Pelosi, Majority Leader Schumer, Leader McConnell, Leader McCarthy:

The 244 undersigned organizations, dedicated to the health and well-being of birthing people and their families, write to express our enthusiastic support and appreciation for the maternal health provisions included in the Committee on Energy and Commerce print of the Build Back Better Act. We appreciate the Committee's demonstrated commitment to addressing our nation's maternal mortality crisis, which disproportionately impacts Black and Indigenous people, through bold policies that will help us ensure that pregnant and postpartum people have access to critical resources, health care coverage, community-based and social supports, and the high quality health care they need in order to thrive. We urge you to swiftly enact these provisions and send them to the President's desk. Our nation's moms depend on it.

We are thrilled that a mandatory, permanent extension of postpartum Medicaid coverage, from 60 days to 12 months after delivery, is included in the Build Back Better Act. Extending postpartum Medicaid coverage is fundamental to addressing the maternal mortality crisis. Medicaid is a primary payer of maternity care in the U.S., covering 43 percent of births nationwide.ⁱ Further, about one third of maternal deaths happen in the postpartum period.ⁱⁱ Yet, before the enactment of the state plan option in the American Rescue Plan Act (ARPA), Medicaid coverage based on pregnancy status ended at 60 days postpartum. Since the enactment of ARPA, many states have indicated they intend to pursue the state plan option; however, we remain concerned that many states will not act to provide 12-month postpartum Medicaid coverage without a federal mandate.ⁱⁱⁱ The evidence is clear that disruptions in insurance coverage during the postpartum period are contributing to adverse maternal health outcomes. We appreciate that the Build Back Better Act prioritizes moms by ensuring that every person across the nation who relies on Medicaid for pregnancy-related care will have the critical coverage they need during an extremely consequential time in their health. We strongly support this provision and urge its swift enactment.

Similarly, we are grateful that the Build Back Better Act includes robust investments in programs that take steps towards birth equity by centering the voices, needs, and preferences of Black and Indigenous individuals, who disproportionately experience inequities in maternal health. In particular, we are thrilled that provisions of the Black Maternal Health Momnibus Act have been included, with a focus on investing in community-based organizations, addressing social determinants of maternal health, expanding the perinatal workforce, addressing the impacts of climate change on maternal and infant health, increasing community engagement in maternal mortality review committees, supporting targeted research at Minority-Serving Institutions, investing in maternal mental health, and improving the

provision of culturally congruent care. These historic investments are critical to improving Black maternal health. We urge Congress to swiftly advance these provisions to enactment.

Thank you again for your continued commitment to addressing the maternal mortality crisis and improving maternal health. We urge Congress to swiftly enact these important provisions.

Sincerely,

American College of Obstetricians and Gynecologists
